

# COASTAL ARMORING

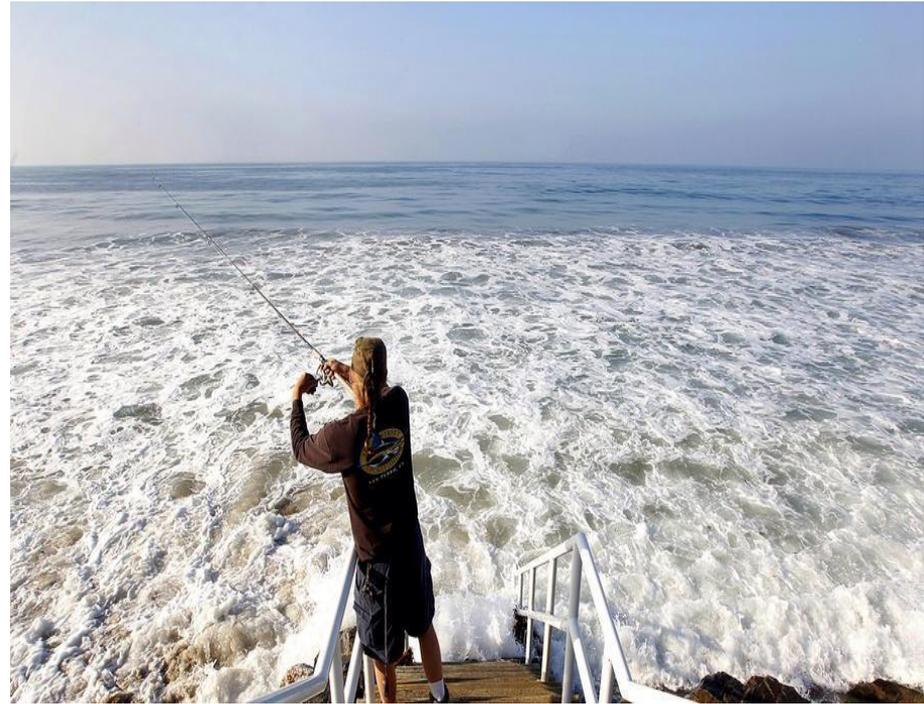

## Problems

- Culprit of beach erosion.
- Armoring and hard structures prevent sand connectivity & exchange.
- Accelerated Erosion—hard structures block natural migration of sand and alter wave action, undercutting ocean floor & perpetuating erosion.

# PUBLIC ACCESS

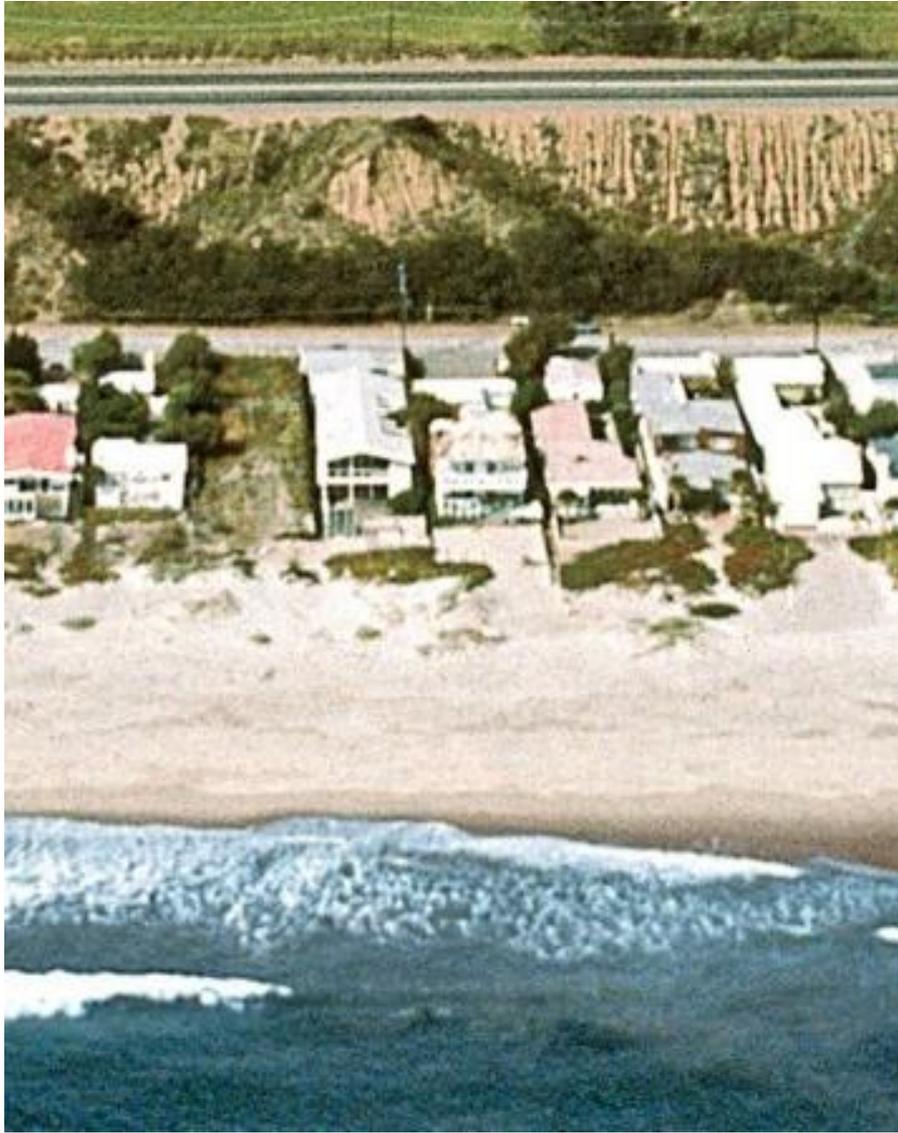

- Armoring and beach erosion impacts public access.
- Advocating for deed restrictions, easements and Local Access Management Programs.
- Managed Retreat.

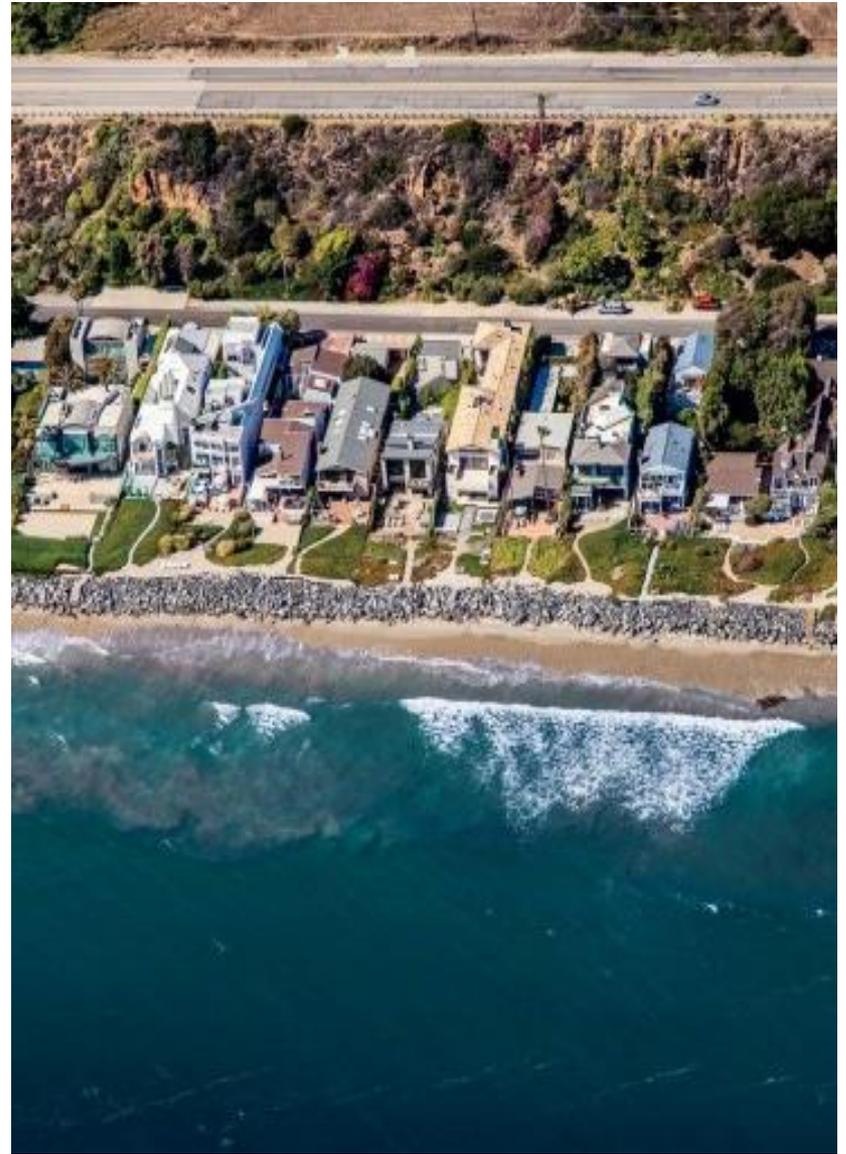

# RECREATION

- Coastal erosion impacts recreation
  - Shrinking beaches
  - Impacts to wave formation
- Sea Level Rise accelerates loss of access
- Safety issues

40 years ago.

2013. 40 yrs of erosion post development
